George Washington Carver was born in 1860 in Diamond Grove, Missouri, and in spite of earlier issues would advance to become one of the most commemorated and highly regarded scientists in United States history. His significant discoveries and methods enabled farmers throughout the South and Midwest to become profitable and prosperous, becoming a renowned agricultural scientist, educator, and humanitarian.

In his own words, George Washington Carver was known throughout the South as the farmer's best friend. His work on crop rotation and innovative products helped many farmers to survive and make a good living. Carver's nickname, not surprising considering he discovered around 300 uses for peanut, was Peanut Man. Batman is very popular, but the name Peanut Man may make some people pause and think that was George Washington Carver's inventions in the 1800s.

George Washington Carver was born on July 12, 1861, near Diamond Grove, Missouri, in the bloody struggle between free soilers and slaveholders. His father was a slave on a nearby farm who was killed shortly before Carver was born. Carver himself became the kidnap victim of night riders while still a young child. The plant doctor tended his secret garden while observing the day to day operations of a 19th-century farm. Nature and nurture ultimately influenced Carver on his quest for education to advance to become one of the most celebrated and respected scientists in United States history.

George Washington Carver was an American agricultural scientist and inventor who developed hundreds of products using peanuts though not peanut butter as is often claimed sweet potatoes and soybeans. Carver was born in Kansas Territory near Diamond Grove Missouri around 1864. He is one of the nation's most famous agricultural scientists.

George Washington Carver was an anomaly in his own time—A black man praised by white America. He discovered and invented over 100 uses for peanuts, including dyes, paints, and plastics. Carver was known throughout the South as the farmer's best friend. His work on crop rotation and innovative products helped many farmers to survive and make a good living. Carver's nickname, not surprising considering he discovered around 300 uses for peanut, was Peanut Man. Batman is very popular, but the name Peanut Man may make some people pause and think that was George Washington Carver's inventions in the 1800s.
